Operation of the naturally commutating hidden link converter feeding cage induction motor

Asher, G.M.; Davis, R.M.; Vasquez-Borquez, J.D.;

Power Electronics and Variable-Speed Drives, Third International Conference on, 13-15 Jul 1988

Pages:130 - 133

[Abstract] [PDF Full-Text (264 KB)]

2 A new generative method for simulation of radio channels based on hidden Markov models

Garcia-Frias, J.; Crespo, P.M.;

Vehicular Technology Conference, 1996. 'Mobile Technology for the Human Ra IEEE 46th, Volume: 2, 28 April-1 May 1996

Pages: 627 - 631 vol. 2

[Abstract] [PDF Full-Text (472 KB)] **IEEE CNF**

3 Hidden Markov models for burst error characterization in indoor rad channels

Garcia-Frias, J.; Crespo, P.M.;

Vehicular Technology, IEEE Transactions on , Volume: 46 , Issue: 4 , Nov. 199 Pages:1006 - 1020

[PDF Full-Text (356 KB)] [Abstract] IEEE JNL

4 Performance evaluation of the forward link of a CDMA cellular system Balaban, P.; Li, D.; Turin, W.;

Military Communications Conference Proceedings, 1999. MILCOM 1999.

IEEE , Volume: 1 , 31 Oct.-3 Nov. 1999

Pages:162 - 166 vol.1

[Abstract] [PDF Full-Text (384 KB)] IEEE CNF

5 Steady state operation of a controlled hidden-link induction motor d Lefley, P.W.; Asher, G.M.;

Power Electronics Specialists Conference, 1992. PESC '92 Record., 23rd Annua IEEE , 29 June-3 July 1992

Pages:119 - 125 vol.1

[Abstract] [PDF Full-Text (396 KB)] IEEE CNF

6 Performance analysis of RLP over fading channels in CDMA systems Gao, Q.;

Global Telecommunications Conference, 2003. GLOBECOM '03. IEEE , Volume: 2 , 1-5 Dec. 2003

Pages: 966 - 971 Vol.2

[Abstract] [PDF Full-Text (301 KB)] IEEE CNF

7 Modeling fading properties for mobile satellite link channels using Markov model approaches

Hsin-Piao Lin; Ming-Jian Tseng; Ding-Bing Lin;

Antennas and Propagation Society International Symposium, 2003. IEEE , Volu 4 , 22-27 June 2003

Pages:192 - 195 vol.4

[Abstract] [PDF Full-Text (303 KB)] IEEE CNF

8 Improving chaos equations fading models for Ka band satellite links

Costamagna, E.; Favalli, L.; Gamba, P.; Tarantola, F.;

Vehicular Technology Conference, 2002. VTC Spring 2002. IEEE 55th , Volume 4 , 6-9 May 2002

Pages:1990 - 1994 vol.4

[Abstract] [PDF Full-Text (515 KB)] IEEE CNF

9 Low delay data transmission over the ATDMA air interface

Mourot, C.; DeVile, J.; Maikamaki, E.; Diaz, P.; Gerboles, M.E.; Vehicular Technology Conference, 1995 IEEE 45th, Volume: 2, 25-28 July 19 Pages:634 - 638 vol.2

[Abstract] [PDF Full-Text (420 KB)] IEEE CNE

10 A structural learning algorithm with forgetting of link weights Ishikawa, M.;

Neural Networks, 1989. IJCNN., International Joint Conference on , 18-22 Jun 1989

Pages:626 vol.2

[Abstract] [PDF Full-Text (76 KB)] IEEE CNF

11 Robust distributed estimation in sensor networks using the embedd

polygons algorithm

Delouille, V.; Neelamani, R.; Baraniuk, R.;

Information Processing in Sensor Networks, 2004. IPSN 2004. Third Internatio Symposium on , 26-27 April 2004

Pages: 405 - 413

[Abstract] [PDF Full-Text (959 KB)] IEEE CNI

12 Comments on "Stochastic choice of basis functions in adaptive func approximation and the functional-link net" [and reply]

Jin-Yan Li; Chow, W.S.; Igelnik, B.; Yoh-Han Pao;

Neural Networks, IEEE Transactions on , Volume: 8 , Issue: 2 , March 1997 Pages: 452 - 454

[Abstract] [PDF Full-Text (56 KB)] IEEE JNL

13 Up-link performance of the DQRUMA MAC protocol in a realistic indo environment for W-ATM networks

Verikoukis, Ch.V.; Olmos, J.J.;

Vehicular Technology Conference, 2000. IEEE VTS-Fall VTC 2000. 52nd , Volum 4 , 24-28 Sept. 2000

Pages:1650 - 1655 vol.4

[Abstract] [PDF Full-Text (512 KB)] IEEE CNF

14 On the occupancy of shared wireless channels

Hamdi, K.A.;

Wireless Communications and Networking Conference, 2002. WCNC2002. 200 IEEE , Volume: 2 , 17-21 March 2002

Pages:734 - 737 vol.2

[Abstract] [PDF Full-Text (330 KB)] IEEE CNF

15 A robust method for still image compression using dynamically constructive neural network

Bhuiyan, M.I.H.; Hasan, M.K.; Haque, M.A.; Hammadi, N.C.;

Signal Processing and its Applications, Sixth International, Symposium on.

2001 , Volume: 2 , 13-16 Aug. 2001

1 1a---Links and Navigation: The look of the link - concepts for the user interface of extended hyperlinks

Harald Weinreich, Hartmut Obendorf, Winfried Lamersdorf

September 2001 Proceedings of the twelfth ACM conference on Hypertext and Hypermedia

Full text available: pdf(307.01 KB)

Additional Information: <u>full citation</u>, <u>abstract</u>, <u>references</u>, <u>citings</u>, <u>index</u>

The design of hypertext systems has been subject to intense research. Apparently, one topic was mostly neglected: how to visualize and interact with link markers.

This paper presents an overview of pragmatic historical approaches, and discusses problems evolving from sophisticated hypertext linking features. Blending the potential of an XLink-enhanced Web with old ideas and recent GUI techniques, a vision for browser link interfaces of the future is being developed. We hope to stimula ...

Keywords: Web, XLink, distributed hypertext, link marker, user interface

² The treadmill: real-time garbage collection without motion sickness

46)

Henry G. Baker

March 1992 ACM SIGPLAN Notices, Volume 27 Issue 3

Full text available: pdf(464.25 KB) Additional Information: full citation, abstract, citings, index terms

A simple real-time garbage collection algorithm is presented which does not copy, thereby avoiding some of the problems caused by the asynchronous motion of objects. This in-place "treadmill" garbage collection scheme has approximately the same complexity as other non-moving garbage collectors, thus making it usable in a high-level language implementation where some pointers cannot be traced. The treadmill is currently being used in a Lisp system built in Ada.

3 Integrating Theory and Practice: The Agent Architecture Framework APOC and Its Development Environment ADE

Virgil Andronache, Matthias Scheutz

July 2004 Proceedings of the Third International Joint Conference on Autonomous Agents and Multiagent Systems - Volume 3

Full text available: pdf(540.53 KB) Additional Information: full citation, abstract, index terms

In this paper we present the results of the combined development of APOC and ADE, an architecture framework for the analysis, comparison, and design of agent architectures and a distributed agent development environment which implements APOC principles, respectively. We show how the APOC framework relates to other architectures and design methodologies and demonstrate how other architectures and architectural components can be combined in a single architecture through APOC. Next we describe the ...

Designing search engine user interfaces for the visually impaired Barbara Leporini, Patrizia Andronico, Marina Buzzi June 2003 ACM SIGCAPH Computers and the Physically Handicapped, Issue 76 Full text available: Pp pdf(241.11 KB) Additional Information: full citation, abstract, references, index terms

Search engines are a fundamental tool for retrieving specific and appropriate information on the Internet; for this reason it is essential for any user to be able to interact with simple, clear and accessible interfaces. In this paper we discuss the main differences between a visual layout and aural perception, and propose a set of guidelines for search engine user interface UIs design.

Keywords: Internet, accessibility, search engine, usability, user interface, user interface design, web navigation

⁵ Guidelines: Designing search engine user interfaces for the visually impaired Barbara Leporini, Patrizia Andronico, Marina Buzzi May 2004 Proceedings of the international cross-disciplinary workshop on Web accessibility

Full text available: pdf(500.49 KB) Additional Information: full citation, abstract, references, index terms

Search engines are a fundamental tool for retrieving specific and appropriate information on the Internet; for this reason it is essential for any user to be able to interact with simple, clear and accessible interfaces. In this paper we describe the main design issues affecting the user interface of a search engine when a sightless user interacts by means of a screen reader or voice synthesizer. In particular, the most important differences between a visual layout and aural perception are discu ...

Keywords: Internet, accessibility, search engine, usability, user interface design, web navigation

⁶ Papers from Hotnets-II: The dark side of the Web: an open proxy's view Vivek S. Pai, Limin Wang, KyoungSoo Park, Ruoming Pang, Larry Peterson January 2004 ACM SIGCOMM Computer Communication Review, Volume 34 Issue 1

With the advent of large-scale, wide-area networking testbeds, researchers can deploy long-running services that interact with other resources on the Web. While such interaction can easily attract clients and traffic, our experience suggests that projects accepting outside input and interacting with outside resources must carefully consider the avenues for abuse of such services. The CoDeeN Content Distribution Network, deployed on PlanetLab, uses a network of caching Web proxy servers to intell ...

7 Networks and distributed systems: Neural networks library in Java™: a proposal for network intelligent agents Daniele Denaro, Franco Rubinacci

June~2003~ Proceedings of the 2nd international conference on Principles and practice of programming in Java

Full text available: pdf(123.90 KB) Additional Information: full citation, abstract, references, index terms

Although it is now possible to find a huge quantity of neural networks software in several programming languages, it is still not common to find the Java version. More significant than the nth example of neural networks simulators, this software would be a simple and practical tool for generic computational nodes networks. Using the intrinsic portability and the dynamic binding of Java's features, but paying attention at the same time to the performances, this software aims to be a good candidat ...

Keywords: intelligent agents, knowledge structure, neural nets

8 Getting and giving information: An adaptive viewing application for the web on personal digital assistants

Kwang Bok Lee, Roger A. Grice

October 2003 Proceedings of the 21st annual international conference on Documentation

Additional Information: full citation, abstract, references, index terms Full text available: pdf(536.50 KB)

With the proliferation of Personal Digital Assistants (PDAs), people are using such small devices to access the web; however, the web is not accommodating such access. Here, for small devices' users, we present an efficient method for extracting readable documents from XML-based files, which will be used for information streams for mobile Internet access. We designed a selector for handling information streams to extract the customized information based on the user request for the small screen d ...

Keywords: adaptive user interfaces (AUIs), intermediaries and web intermediaries (WBI), personal digital assistants (PDAs)

9 The Roscoe distributed operating system

Marvin H. Solomon, Raphael A. Finkel

December 1979 Proceedings of the seventh ACM symposium on Operating systems principles

Full text available: pdf(588.90 KB)

Additional Information: full citation, abstract, references, citings, index

Roscoe is an operating system implemented at the University of Wisconsin that allows a network of microcomputers to cooperate to provide a general-purpose computing facility. After presenting an overview of the structure of Roscoe, this paper reports on experience with Roscoe and presents several problems currently being investigated by the Roscoe project.

¹⁰ PDAS: An assistant for detailed design and implementation of programs Tomoharu Mohri, Etsuo Ono, Sanya Uehara, Tetsuyasu Takao, Hideki Sato March 1984 Proceedings of the 7th international conference on Software engineering

Additional Information: full citation, abstract, references, citings, index Full text available: pdf(491.57 KB) terms

The development of reliable documents is an important challenge facing the software industry today. This paper presents the Programming and Design Assist System (PDAS), which supports detailed design and implementation of system programs. PDAS uses a design language as the kernel of the system. Japanese/English documents and programs are generated from specifications written in the design language. The design language is a forms-oriented language based on PDL. To standardize the level of ab ...

11 Internet path characterization using common internet tools

Dulal C. Kar

April 2003 Journal of Computing Sciences in Colleges, Volume 18 Issue 4

Full text available: pdf(113.19 KB) Additional Information: full citation, abstract, references, index terms

Ping and traceroute are two popular Internet tools that allow network administrators and users to detect problems on the Internet. The most popular use of ping is to find out whether a host on a network is online or not. However, the most popular use of traceroute is to identify routers along an Internet path. Each tool has many other uses often ignored by common users. This work describes how to use these tools to find the bandwidth of an Internet link, discover the ...

12 An intelligent neural network programming system (NNPS)

Tao Li, XiaoJie Liu

March 2000 ACM SIGPLAN Notices, Volume 35 Issue 3

Additional Information: full citation, abstract, citings, index terms Full text available: pdf(967.78 KB)

A neural network programming system based on parallel neural information processing has been presented. With the neural network programming system built upon a 100M local computer network, the system has thus provided users high speed, general purpose and large scale neural network application development platforms.

Keywords: neural networks, programming language, programming system

13 Electronic documentation system: using automated hypertext techniques for technical support services

V. Konstantinou, P. Morse

November 1992 Proceedings of the 10th annual international conference on Systems documentation

Full text available: pdf(530.11 KB)

Additional Information: full citation, abstract, references, citings, index terms

The Electronic Documentation System, was developed to provide fast, easy, online information retrieval, meeting a specific need for engineering industries. It addresses the requirements of both the user and the author of electronic documentation and provides a viewing system that can be used across a variety of platforms. It also takes advantage of sophisticated cross-referencing techniques to automate the development of electronic documents.
